The Loft Plus collection is modern, simple and elegant. Wide planks are visually enhanced by our brushing process for a natural open grain, organic feel. Loft Plus is a wood floor that glories in all the beautiful expressions of what an easy living wood floor can be. Uptown or downtown, modern or traditional, Loft Plus is contemporary styling with a nod to the beauty and elegance of the past.

A natural product like wood means that each board will be unique. That means that no two boards will be alike. Samples are representative but due to natural variation, both grain and color may vary from the sample and photos.
