The Riviera Collection is comprised of four unique visuals created using wide European White Oak Planks, complimentary layers of stain, chemical treatments and other artistic techniques to create a muted palette of beautiful organic tones. Each plank is wire brushed and hand sanded, some have rustic cross saw marks for a traditional hand milled appearance. The magnificently finished planks are protected with durable aluminum oxide finish for easy maintenance.

A natural product like wood means that each board will be unique. That means that no two boards will be alike. Samples are representative but due to natural variation, both grain and color may vary from the sample and photos.
